

Introducing CellFX[®] Procedure

Treat unwanted benign lesions on your skin with a new innovative approach that's clearly different.

A *clear* difference!

Clears the unwanted. Keeps the good.
Generously cleans out the unwanted cells while keeping the good collagen.

Reducing Scarring
Innovation reduces and prevents damage to the good collagen.

A Noticeable Difference
Removes benign lesions that traditional ways have not been able to.

Minimal Downtime
Able to return to normal activities quickly after procedure.

Treats Many Skin Conditions
Different sizes of benign lesions, types, and locations on your body.
