

**Don't be alarmed, we
are putting your health
and safety *first!***

**Your dermatologist teams are taking the
necessary steps to ensure your health
and safety.**

Due to state and CDC threats to quarantine all contacts of potential Coronavirus exposures, your team has decided to wear masks and safety glasses throughout the entire day and refrain from shaking hands with patients.

Our biggest fear would be infecting you or interrupting care that you so desperately need. Masks and glasses minimize the risk and allow us to provide the care you deserve!

So don't be alarmed, your clinician is wearing a mask and glasses to protect you!

**NO OFFENSE
JUST MAKES SENSE**
